

Summary

Mobile developer with around 8 years of experience building clean and maintainable iOS software for a wide range of businesses ranging from Augmented Reality to Financial Services. Possess a strong technical background with a Masters Degree in Computer Engineering from the University of Florida. Lots of experience working in agile teams and also some independently as the only developer. Currently looking for a challenging new role and some fun people to work with. I have been living in the Netherlands for more than 5 years now and can speak Dutch as well :)

Previous Work Experience

- **IceMobile Agency** Amsterdam, The Netherlands
Senior iOS Engineer *February 2014 - November 2014*
 - Senior developer in the iOS development team building apps for the leading supermarkets in the Netherlands such as Jumbo and Albert Heijn
 - Gathering business requirements and coming up with efficient technical solutions to address them
 - Automating user interface testing and setting up continuous integration
- **Ebuddy** Amsterdam, The Netherlands
iOS Developer *June 2013 - January 2014*
 - Working in the iOS development team building the messaging app XMS that had millions of users around the world and was a competitor to whatsapp
- **Simple Apps LLC** New Delhi, India
Owner *February 2012 - June 2013*
 - Started an iOS App development company and built several apps under it
- **MicroStrategy Inc.** McLean, VA
Software Engineer *September 2010 - January 2012*
 - Worked on several iOS development projects for the clients of Microstrategy and helped automate various tasks. Also helped develop the microstrategy SDK. iOS was a pretty new technology at this point so this was some really good experience.
- **Citisync.com** Gainesville, FL
iOS Developer *January 2010- July 2010*
 - Singlehandedly built the citisync iOS Application. This was when iOS 3 was the latest version. Also my first experience as an iOS Developer and it piqued my interest in the field
- **Bloomberg LP** New York, NY
Financial Software Development Intern *May 2009 - August 2009*
 - As an intern in the manhattan office, I helped out with a number of projects in the Global Trading team writing code in C++ and managing large mainframe supercomputers

Education

- **University of Florida** Gainesville, FL
Masters in Computer Engineering *August 2008 - August 2010*
 - CGPA: 3.6/4.0
